

DURACELL®
DAYLITE
LED FLASHLIGHT

Spot the difference

20x
BRIGHTER*

Spotless
pure white light

*vs. standard 5mm LED

Quite simply Duracell Daylite torches are twenty times brighter than regular LED torches.

Using our patented TrueBeam Optics™, Daylite torches deliver a white, bright, even light with no dark spots.

With ordinary torches, because the beam is not accurately directed, you lose beam intensity and are often left with a dark spot in the centre.

With TrueBeam Optics™ the combination of a specially designed reflector and a precision-focused lens captures, focuses and projects 100% of the light – turning night into day.

TrueBeam Optics™

- Reflector captures 100% of the light
- Precision focus lensing
- 3:1 zoom ratio – from spot to flood
- Delivers a bright, true beam.

White, bright, even light with no dark spots.

Duracell Daylite

Ordinary torches

Duracell Daylite torches aren't just bright, they're sturdy too.

Designed specifically for professional use, Daylite torches give you the same kind of dependability you demand from all your tools.

Extended battery life

Water resistant

Shock resistant

TRUEBEAM OPTICS™ PRECISION-FOCUS LENSING. UP TO 160 LUMENS/4W LED;** CAPTURES UP TO 100% OF LIGHT.

*Not available on all products.

**C, D, and CR123 flashlights have 160 lumens/4W LED.

Daylite Tough torches

If the going gets really tough our Daylite Tough range is specially engineered to handle it, with extra resilience and shock resistance.

- Durable polymer composite bodies
- Non-slip, rubber grips
- Shatterproof lens caps.

DURACELL® DAYLITE LED FLASHLIGHT

There's a Duracell Daylite torch for every job.

From small, compact models for hard-to-get-to spots to larger more powerful torches where you need a lot more light, there's a Daylite torch for every situation.

The range includes specialist models such as a head-mounted torch, a powerful spotlight and a high-power lantern.

DURACELL®
DAYLITE
LED FLASHLIGHT

Duracell is the world's leading manufacturer and marketer of high-performance alkaline batteries.

From office suppliers to the security forces, thousands of professionals put their trust in Duracell every day to provide long-lasting power for their important devices. Now we can bring you high-power brightness that lasts too.

With a long tradition of innovation and technological excellence, Duracell has been leading advances in battery technology since 1964. Today Duracell Professional is also leading the way with our new range of Daylite torches.

Choose which Duracell Daylight torch is best for you.

| Description | Beam Distance (metres) | Run Time (hours) | H ₂ O resistance | Lumens |
|--|------------------------|------------------|-----------------------------|--------------|
